

ABOUT THE BOOK

Security Studies: Principles and Practices, is a textbook that is tailored for students of security and strategic studies, but is also useful to those undertaking studies in international relations and diplomacy. Be that as it may, security policy makers and legislators will also find this book useful. The book contains discussions on a constellation of topics in the security realm. Hinging on various perspectives and theoretical debates, in this book security is presented from an elaborate and multidimensional angle, which culminates in the inference that security gyrates or should gyrate around humanity. In view of this, the book contains a critical autopsy of the historical, constitutional, legal, institutional, and policy frameworks that underpin Uganda's security architecture, as well as proposals for the reform of the sector to align further with the paradigm of human security.

ABOUT THE AUTHOR

Dr. Asimwe Solomon Muchwa is the Head of the Department of Public Administration and Political Studies and a senior lecturer at the School of Social Sciences, Nkumba University. He holds a PhD in Security and Strategic Studies, a Master of Science in Security Sector Management; a Master of Arts in International Relations and Diplomatic Studies; a Bachelor of Arts in Social Sciences; a Diploma in Education, and a certificate in Legislative Practice. His doctoral studies and research focused on intelligence oversight mechanisms in the protection of democracy.
